Managing files

- How do I access my data stored in microSD, SD card and USB device? Tap on the SD card or USB icon in the prompt on the bottom right corner. Tap on the folder icon and you will see all your data in the selected storage device. Refer to the user manual for details.
- How do I move the selected file to another folder?
 Tick the desired file and tap on Copy or Cut. Enter the desired destination folder and tap the Paste icon on the top right corner to move the file.

If you would like to copy more than one file at a time, tick the desired files or tap **Select All**, then tap **Copy** or **Cut**. Enter the desired destination folder and tap the **Paste** icon on the top right corner to move the files.

• How do I copy and paste the selected file to the connected external storage device?

Follow the previous instructions and locate your desired destination folder in the external storage device.

Stopping or uninstalling application

• How can I stop a running application?

To stop a current running application, tap **Apps** menu > **Settings** > **Applications** > **Running services**. Select the application and tap on **Stop**.

You can also tap on the **Recent Apps** key at the lower left, then tap on the **x** of the corresponding application listed on the panel.

 What if I don't want the downloaded application anymore? To uninstall the unwanted application, tap on Apps menu > Settings > Applications > Manage applications > Downloaded. Select the application and tap Uninstall.

• Where can I check the status or the detailed information about the application?

To check the application information, tap on **Apps** menu > **Settings** > **Applications** > **Manage applications** > **All**. Select the application to display its detailed information.

System unresponsive

• What should I do when my Eee Pad becomes unresponsive?

Press and hold the power button until you see the **Power off** menu and select **OK**, then press and hold the power button to turn on the system again, or poke and hold the reset button (the tiny hole on the left of the Eee Pad) until the system restarts. The ASUS logo will appear on the screen once the system boots up successfully.

• **My Eee Pad screen is off and I cannot wake it up.** Press and hold the power button to turn on the system again, or poke and hold the reset button (the tiny hole on the left of the Eee Pad) until the system restarts. The ASUS logo will appear on the screen once the system boots up successfully.

External storage device

 I've already inserted a microSD card into my Eee Pad, but I can't see it.

Remove the memory card from your Eee Pad and insert it again.

 I've already connected a USB disk drive, but I can't see it on my Eee Pad.

Undock your Eee Pad from the mobile docking and re-dock your Eee Pad, or remove the USB disk drive from your Eee Pad and insert it again.

Capturing screenshots

• Can I capture screenshots on my Eee Pad?

Yes. Tap **Apps** menu > **Settings** > **ASUS Customized Setting** and tick **Screenshot**. Hold the **Recent Apps** key to capture your desired screenshots. If you have docked your Eee Pad, press the hotkey on the keyboard directly.

Battery

- How do I extend the battery life of my Eee Pad? Check out the screen timeout in **Settings**. Setting the screen timeout to **Never** will consume more battery power. Manage and close your running applications when they are not in need. Refer to **Stopping or uninstalling applications** for instructions.
- What if the battery is totally drained? Connect the power adapter to charge your Eee Pad. You can start your

Eee Pad normally around 10 minutes.

Why isn't my Eee Pad fully charged by the mobile docking? When your Eee Pad is docked and disconnected to a power adapter, the mobile docking only charges your Eee Pad battery up to 90% maximum to protect your battery and prolong its life. The mobile docking recharges once your Eee Pad battery power goes below 70%. The power adapter fully charges your Eee Pad battery to 100% and recharges when below 95%.

• Why does my Eee Pad take longer to charge?

When your Eee Pad is docked, the power adapter charges both pad and dock, so it takes more time for your Eeepad to charge.

Fully insert the 40-pin connector of the power adapter to your Eee Pad or dock to ensure that your Eee Pad is well connected to power.

Browser

How can I customize my browser's view?

Open the web browser. Tap on the tool button on the top right corner and select **Settings** > **Advanced** > **User agent string** > **Tablet/Desktop/Mobile-phone**.

MyNet

How can I use MyNet?

Make sure that you have started the Microsoft Media Player (version 10 or later) on the PC. Also, make sure that your Eee Pad and the PC are connected to the same wireless access point. Refer to the user manual for details.

System update

How can I update my system?

You don't have to manually update your Eee Pad. ASUS will notify you with a pop-up message when there is an update. You have to connect to the Internet and login to your Google Account.

Factory defaults

 How can I reset my Eee Pad to its factory defaults?
 Tap on Settings > Privacy > Factory data reset. Tapping on Reset tablet will erase all your data from your Eee Pad.

Make sure to back up your important data before resetting your Eee Pad.

E-mail attachments

• Can I open and save the e-mail attachments on my Eee Pad? Yes, you can but the file size needs to be smaller than 5MB.

Signal reception

 Will the GPS function on my Eee Pad be affected by the heat insulation protective films on car windows?

Yes, heat insulation protective films on the car windows may reduce or block GPS signals from coming through to your Eee Pad.

For your own safety, do not use the Eee Pad and GPS function while driving your car.

To speed up initial position acquistion with GPS on your Eee Pad, connect to the Internet first before activating GPS tracking.
